## EDUCATION

**GIFT Autonomous**, Bhubaneswar, Odisha

2023 – Present

*Bachelor of Technology (B.Tech) in Computer Science & Engineering*

CGPA: 8.63

**Core CS & Web Development:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Web Technologies, Computer Networks, Operating Systems.

## TECHNICAL SKILLS

**Languages:** JavaScript, Java, Python

**Frontend:** HTML5, CSS3, Bootstrap, Tailwind CSS, React.js

**Backend:** Node.js, Express.js

**Databases:** MongoDB, MySQL

**Tools & Deployment:** Git, GitHub, Vercel, Render

## PROJECTS

### Zynk – Connect Instantly ([GitHub](#))

*Real-Time Chat Web Application*

- Developed a full-stack real-time chat application using MongoDB, Express.js, React.js, and Node.js (MERN stack), integrating Socket.io to enable instant messaging and real-time user presence updates.
- Designed and implemented RESTful APIs using Node.js and Express.js for user authentication, messaging, and profile management, following a modular MVC architecture.
- Structured MongoDB schemas with Mongoose for users, messages, and conversations, enabling efficient storage and retrieval of chat history and user data.

### GreenCart ([GitHub](#))

*Grocery E-Commerce Platform*

- Built a full-stack grocery e-commerce web application using MongoDB, Express.js, React.js, and Node.js (MERN stack), featuring separate User and Admin panels for a complete shopping and management experience.
- Implemented secure JWT-based authentication, dynamic cart management, and end-to-end order placement functionality, enabling users to browse, purchase, and track grocery items seamlessly.
- Developed an Admin Dashboard for product and order management, integrating Cloudinary for efficient image storage and upload of product listings.

## EXPERIENCE

### MERN Stack Developer Intern

August 2026 – Present

#### MindBrain Innovations Private Limited, Bhubaneswar

- Working as a MERN Stack Developer Intern, gaining hands-on exposure to full-stack web development using MongoDB, Express.js, React.js, and Node.js in a live production codebase.
- Collaborating with the development team to understand existing application architecture, coding standards, and Git-based version control workflows.

### Artificial Intelligence & Machine Learning Intern

May – July 2025

#### Central Tool Room & Training Centre (CTTC), Bhubaneswar

- Applied core Machine Learning and Deep Learning concepts to a real-world time-series forecasting problem, strengthening practical understanding of model training and evaluation.
- Built and deployed a stock closing-price prediction model using Python and Flask, integrating a trained ML model into a functional web-based application.

### Web Designing Intern

June – July 2024

#### Central Tool Room & Training Centre (CTTC), Bhubaneswar

- Designed a frontend e-commerce website using HTML, CSS, JavaScript, and Bootstrap.
- Built responsive product pages for mobile, laptop, and watch categories.
- Applied UI/UX principles to improve layout, structure, and user experience.
